

# 2010 HUNT - WINSTON SCHOOL SOLAR CAR CHALLENGE

Field of competitors in the 2009 Hunt-Winston School Solar Car Challenge

The Hunt-Winston School Solar Car Challenge is an educational program designed to help motivate students in Science, Engineering & Technology.

The 2010 Solar Challenge is a cross-country event leaving from the world famous Texas Motor Speedway in Dallas/Fort Worth on Sunday, July 18<sup>th</sup> and arriving in Boulder, Colorado on Sunday, July 25<sup>th</sup>. More than twenty teams from around the country will be driving their high school solar cars in an educational experience of a lifetime.

The Winston Solar Education Program was established in 1993. Since its inception, 18,000 students have taken part in this national event. There are presently 54 on-going high school solar car projects in the United States. The Hunt Oil Company is the title sponsor for this year's competition.
